

Natural High

Open up
Feel the vibes
Bringing hope
Into your life
Breathe the air
Pure and free
Taste a piece
Of harmony
Take your time
Clear your mind
Soul and spirit
So sublime

There's a magic you find
When you reach deep inside
Living a natural high

Open up, feel the vibes
Bringing hope into your live
Into your heart
We can touch the stars
Breathe the air, pure and free
Taste a piece of harmony
Drink in the laughter
Safe and warm
Take your time, clear your mind
Soul and spirit so sublime
No need to hide
Fate will be your guide

There's a magic you find
When you reach deep inside
Living a natural high
